This project was supported by

The **New England Water Infrastructure Network (NEWIN)** helps communities access Bipartisan Infrastructure Law funding for drinking water, wastewater, stormwater, and nonpoint source pollution needs. Our technical, financial, and managerial assistance is free, and we work with a network of experienced partners across New England. To learn more, visit: [neefc.org/water-infrastructure/](https://neefc.org/water-infrastructure/)

NEWIN is a program of the New England Environmental Finance Center and is funded by the U.S. Environmental Protection Agency.
